

## Setting up Task Scheduler to run daily backup script for Color Manager.

1. Download file „Color\_Manager\_Daily\_Backup\_C\_Task2” from <http://my.anaac.net/support/downloads>
2. Extract this file
3. Press [Windows] + [R] buttons combination on your keyboard
4. Type in taskschd.msc and press [Enter]
5. In Task Scheduler click [Create Basic Task...]

6. Follow instruction below. You may select the hour that is suitable for the customer. Note that the file you need to select is C:\CM\_Backup\Source\TaskToStartCMBackup2.bat (the picture just shows an example)

7. Reboot the PC to activate the Task you have just defined
